EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 12, delete the symbol between " $\Delta\delta$ " and ">".

2. The following is an examiner's statement of reasons for allowance:

As cited in the previous rejections, Hoang et al. (US 6,583,082) discloses a high activity catalyst composition for ethylene polymerization comprising a phosphinimine ligand containing Group IVB metallocene catalyst and alumoxane cocatalyst which meets the catalyst limitation of the instant claims, while Gillis et al. (WO 97/38019) discloses the preparation of ethylene/ α -olefin/vinyl norbornene terpolymer. However, those cited references do not teach or reasonable suggest an ethylene/ α -olefin/vinyl norbornene terpolymer with the specified branching property represented by $\Delta\delta$ of the instant claims. Therefore, it would not have been obvious to come up the claimed process by combining the teaching of the references, and therefore the instant claims are deemed novel and nonobvious over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1796

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
